

This is your opportunity restore America's crumbling foundations.

It is convenient (24/7) quick and effective. Ask your friends to participate as well.

National Great Seal Day is an attractive feel-good patriotic idea and most elected conservative officials would likely support it if requested by their constituents.

On the state level almost all governors have on their website a proclamation request form as a convenient method for their constituents to request a proclamation day. You can request June 20 as National Great Seal Day (that day in 1782 Congress approved The Great Seal) by simply completing the form and copying the following National Great Seal Day text into the form.

At the federal level follow the procedure above on the contact page provided for their constituents.

National Great Seal Day

A diagram is a drawing explaining how things work. America's Great Seal diagrams the:

The National Pledge- "one nation under God"

The National Motto- "In God We Trust"

The National Anthem- "a Heaven saved land"

The Founding Documents- "Creator endowed unalienable rights"

The Lord's Prayer- "Thy will be done on earth"

Diagrams are typically used by qualified people to restore defective equipment such as appliances, autos, and aircraft... even your body. Many Americans, if not most, sense that our nation is experiencing a serious defect and must be restored...but how? The Founding Fathers diagram of how a healthy America works is our national emblem: THE GREAT SEAL. Citizens must become familiar with the Great Seal in order for it to do its job.

The US State Department is responsible for the Great Seal and rightfully claims on page 6 of their website, "**Symbolically, the Great Seal reflects the beliefs and values the Founding Fathers attached to the new nation and wish to pass on to their descendants.**"

America's national emblem deserves equal patriotic status with the national flag and should have a national day of recognition; as the flag does annually on June 14.
